Proposed learning outcomes from the Career Development Learning Activity:
It is very important that you read the learning agreement guide before filling in this form. You need to list **at least 7 learning** outcomes, and at least **two** learning activity should be closely relevant to the course you are doing at the university.

Learning Outcome ID	**Learning outcomes** By the end of my work placement, I will be able to develop what skills or knowledge: (e. g. develop my XXX skills, enhance my knowledge of XXX)	**Activities and tasks** I will achieve this learning outcome by carrying out what tasks (e. g. participating in a Web development project, or to work in a team, or to engage in group discussion)	**Evidence** Evidence I could use to demonstrate that I have achieved this learning outcome? (e. g. feedback from the employer, artefacts I will develop, screen shots or video capture, meeting minutes)
LO1	I aim to strengthen my communication abilities across both technical and non-technical settings. Additionally, I plan to improve my presentation skills by clearly conveying technical concepts, project progress, and updates to my team and academic supervisor.	I will accomplish this learning outcome by describing support processes through phone conversations, messaging platforms, and face-to-face interactions. I will also create and present brief updates covering assigned responsibilities, issue resolution approaches, and troubleshooting techniques during team or supervisory meetings. Furthermore, I will refine my skills by gathering and applying constructive feedback from participants and my academic supervisor.	Communication logs, supervisor feedback, positive clients feedback, meeting minutes, presentation slides
LO2	I aim to enhance my ability to collaborate and contribute as a productive member of an IT team, improving my teamwork skills by engaging in shared responsibilities, coordinated problem-solving, and cooperative technical tasks.	I will accomplish this learning outcome by actively engaging with the IT team throughout system deployment, technical support activities, and collaborative discussions in team meetings.	Peer evaluations, meeting minutes, group task reports.
LO3	I aim to develop stronger analytical and troubleshooting	I will meet this learning outcome by conducting systematic	Troubleshooting reports, learning logs,

	abilities by recognizing technical challenges and applying effective solutions to resolve them.	analysis of technical faults, determining their root causes, and implementing appropriate corrective measures to resolve them effectively.	solution report, before/ after, supervisor notes.
LO4	I aim to improve my ability to organize and allocate time efficiently by managing multiple IT support responsibilities, determining task priority, and ensuring timely completion within required deadlines.	I will achieve this learning outcome by Daily Task Planning and Prioritization, Handling Multiple IT Support Requests, Setting Personal and Team-Based Deadlines, Progress Tracking and Self-Evaluation: Application	Task completion records, individual planning documents, scheduling outlines, summaries of project progress or support incidents, incident reports, and chronological activity breakdown
LO5	I aim to develop greater flexibility and adaptability by gaining proficiency in newly introduced tools and technologies and aligning my work approach with evolving organizational requirements.	I will accomplish this learning outcome by discovering and evaluating new technologies, expanding my knowledge through independent learning, and exchanging insights with my team. I will further reinforce this outcome by applying practical experimentation, system testing, and continuous skill development through real-world practice.	Training Records or Certificates, Screenshots or Recordings of Tool Usage, Change Logs or Update Reports
LO6	I will be able to develop my individual learning and adaptability skills through certifications, self-study, portfolio building, and writing tutorials.	I will achieve this learning outcome by watching the technical issues from YouTube videos and other learning platforms and consult with supervisor.	Research articles feedback from supervisor practical task or log.
LO7	I will be able to make my ability to manage the security of camera in password managing and reset and help	I will achieve this learning outcomes by consulting with technician learn from various learning resources	Security management for client screen shots change records and review from technician.

	the clients in security of camera.		
LO8	I will be able to develop my ability of configuring the camera and pc , server , switch setup setup for different organizations.	I will be achieving this learning outcome by perform this task onsite and consulting it from my technician.	Configured photos on sited of cameras reports, validation from technician.
LO9	I will be able to learn practical skills in clamping, and cable management for structured networking	I will achieve this learning outcome by performing RJ-45 cable punching crimping connectors and organizing network.	Photos of completed task and logs.
LO10	I will be able to strengthen my hardware and software troubleshooting skills on pc cameras and peripheral devices.	I will achieve this learning outcome by diagnosing faults and change them and get the solution to tackle that problem.	Maintenance logs, screenshots of resolved issues before /after repair documentation, supervisor confirmation.
